## FROM THE RABBI

### Artificial Intelligence

AI is actually very cool!  
You want to compose a beautiful letter – just go to Chat GPT and it's done. No need to think anymore; the computer does it for you.

Science already figured out how to make machines labor for us, and now they can even think for us. Are we useless?

In Judaism, the human being has no replacement. We need 10 men for a minyan. A computer can't light candles on Friday night; or kiss a mezuzah.

G-d wants humans with free will to recognize Him and connect to Him through Mitzvot.

No robot will ever be able to replace a Jew.

**- Rabbi Zushe Greenberg**
